I have participated in various projects, working in both small and large teams. I was responsible for developing projects from scratch as well as maintaining them, implementing new features, and enhancing existing ones. I also regularly attended client meetings. My experience is primarily focused on React technology, but I have also gained experience working with Next.js and Shopify.

About me

Over the past three years, I've been improving my frontend skills by working on many different projects using various technologies. I'm always eager to learn about new tools and methods in web development. I'm looking for a team where I can contribute my knowledge, create amazing websites, and further master my skills.
